HOUSING

Campers will be staying in Santa Catalina dorms, which is the one of the largest dorms at UCSB. The dorms are suite style. Suite style means that there are two rooms that share a bathroom. Each room has two beds. As a camper you will have one roommate and two suitemates. As guests of Santa Catalina, we should strive to treat the hall with respect. Any damage incurred during your stay will be your financial responsibility.

Living in Santa Catalina will allow you to experience what it's like to be an independent college student.

DINING

Breakfast and dinner during the week will be held at the Portola Dining Commons. Lunch will be provided at the De La Guerra Dining Commons. The meals will be buffet style as seen commonly in many college campuses across the country. All meals will be served following a 5-10 minute nutrition brief. The nutritional brief will feature tips and nutritional breakdowns of what is available and what to focus on to fuel and recover. After eating your first serving you will be allowed a second portion comprised of items that can be found in the salad bar section of the dining hall.

UNPLUGGED

At Camp New Heights we believe in being present and having shared experiences with fellow campers. Due to our mission to encouraged shared experiences, we limit cell phone usage to one day per week (Saturdays). The lack of technology helps campers form stronger bonds with their peers and truly experience camp.

Campers will have access to their phones every Saturday afternoon through Sunday morning.

Upon arrival campers will be without their phones until their first Saturday.

BEGINNER TRACK

The beginner track is designed to fit campers who are new to exercise or athletic activities. Information about physiology, weight loss, recovery, overload, proper running, so much more. These campers will see transformations in weight, self-esteem, muscle tone, and a tangible feeling of well being (feeling good). Campers will gain exercises and lifestyle tips that they can bring home with them to continue their healthy lifestyle journey.

INTERMEDIATE TRACK

Our intermediate track is for those athletes who have some experience with organized sports. This experience can range from club, junior varsity, etc... These athletes have the athletic background, but perhaps lack the skills and knowledge to work on their game outside of the season or outside of the confines off the field/gymnasium. These athletes may struggle with their weight, diet choices, or staying in game shape year round. Our intermediate athletes may also be athletes who want to go from making the team to making the starting lineup.

ADVANCED TRACK

The advanced track is primarily made up of athletes who have athletic experience. These campers may have experience playing on a school team or have some other kind of athletic experience, but they still have untapped potential. JT Thompson (JT) will utilize his years of experience working with middle school, high school, and professional athletes to enhance each athlete's performance. JT will also work on the mental acuity and focus it takes to reach the next level. JT's athletes leave his class with a multitude of skills that can be built on at home and will surely show themselves in future athletic endeavors.

EXCURSIONS

On weekends campers will embark on excursions that take them off campus on adventures. In the past these activities have included: ziplining, standup paddleboarding, kayaking in the Channel Islands, ice skating, dinner and a movie, and camping in national parks.

GROCERY STORE CHALLENGE

On Sundays campers are grouped together in teams and assigned a different piece of a meal (appetizer, main course, dessert). The teams then research healthy recipes that they can prepare for their portion of the meal. Utilizing the nutritionist as a guide, campers will make a supply list of ingredients needed at the grocery store. Campers will then be taken to the local grocery store and will pick out their items with their team. While collecting items campers will learn to read and understand nutrition labels, comparative shop, and look for key ingredients in various goods.

COOKING CHALLENGE

Upon returning from the grocery store campers will work with their teams utilizing the ingredients just purchased at the grocery store to prepare Sunday's lunch. Teams will work on appetizer, main course, and dessert.

Over the years the grocery store and cooking challenge has become a weekly staple and a camper favorite.

PARENT VISITING DAY(JULY 16)

Campers will return from the camping excursion at approximately 11:00am on Sunday, July 16th. Starting at 11:00am parents can sign their kids out for the day. We ask that kids return to camp by 6:00pm, so that they can have dinner at camp that night.

For parents that do not attend parent visiting day, do not fret. We try to make sure all campers have a special visiting day regardless of whether their parents visit or not. We always plan a special day out for those campers that do not have visiting parents.
